Welcome back to all families and staff at Upper Sandy Creek for Term 2. We finished the term off in a great way with our visit to Mitta Mitta Primary. We were joined by Tallangatta Valley as well for the day. The kids rotated through some art and craft activities before lunch. After lunch the students participated in some tabloid sports activities. It was really great to see the way the kids all mixed together and played so well. Our students really took on the leadership roles in the small groups which was great to see. During the craft activities it was also very pleasing to see our students so willing to help out with the younger students, particularly Sophie and Jack who spent quite a bit of time making sure the Foundation students had all completed their activity. We had a really nice lunch together then the kids got to go on an Easter egg hunt. A big thanks to Gayle Murray and Mandy Gay for organising the day. The next combined day will be here, at Upper Sandy Creek Primary.

Starting this week Jack will be providing hot lunches for the students as part of his fundraising activities. This week will be a sausage roll and a prima. We will be having hot lunches on Friday so please send along some money to support Jack. The cost this week will be $4. Thanks to Jack for getting this off the ground again this year.

Our students have entered stories they wrote about the Gallipoli landings into a writing competition. The competition is called write4fun and has some great prizes. Over the next few weeks I will be putting the stories on the Facebook page for all to read. The kids really tried hard to get these finished. I have really enjoyed reading these stories.

Last terms topic will continue for the next few weeks in the lead up to ANZAC day. The kids really worked hard to complete tasks here at school in the last 2 weeks of term. They have done some great work researching about WW1. We will also have the next 2 weeks to complete the homework projects. All the kids will have the chance to complete these.

Our next topic will be Life Cycles, the students will be learning about local habitats and conducting some work up at the reservoir.
UPPER SANDY CREEK PRIMARY SCHOOL

VISION FOR OUR SCHOOL

* Sets high standards of learning and celebrates the achievements of each child.
* Is a place of excellence where children can achieve full potential in their academic creative, personal, physical and moral development.
* A partnership between children, parents, staff and the community as a whole.
* A caring place where children and adults feel they make a contribution and are valued as individuals.
* A place of committed, shared values where children learn respect for themselves and others.
